Declaration of conformity

Assessment of the disinfectant **Lerasept® FP 408** depending on the specifications of the law for product safety (ProdSG) within the meaning of the foodstuffs, requisites and feed law (LFGB).

Depending on the specifications of the product safety law, we checked the usability of the product **Lerasept® FP 408** as disinfectant in the food industry, within the meaning of the food, requisites and feed law (LFGB) §§ 30, 31 in combination with § 5 (1) Nr. 1. The assessment based on the recipe data. The used raw materials are not authorized as foodstuff and/or food additive, thereby the product is not authorized as food additive.

The product is used for disinfecting sensitive and smooth surfaces in food progressing plants, beverage industries, sanitary facilities and other public areas.

The product evaporates without any residue from the treated surface. Before possible contact with foodstuffs, the user is prescribed to let **Lerasept® FP 408** evaporate completely without any residue.

If all regulations are followed in an adequate way it is ensured, that there are no preventable components which can be transferred on foodstuffs by surfaces which has been treated with **Lerasept® FP 408**. Under intended and predictable use of the product, there is no harm to human health expected.

Foodstuffs which come into contact with the product by misapplication are no longer suitable for consumption.
